

BLUFF MANUFACTURING OFFERS NEW SHEET ROCK DOLLY
High-quality steel dolly ideal for transporting sheet rock, paneling or plywood

FORT WORTH, TX – September XX, 2009 – Bluff Manufacturing, Inc.

(www.bluffmanufacturing.com) is now offering a sheet rock dolly, the newest product in its line of high quality dock, warehouse and safety equipment.

Lightweight and easy-to-maneuver, Bluff Manufacturing's sheet rock dolly is capable of handling up to 2,000 pounds of materials, including sheet rock, drywall, paneling or plywood. Available with or without casters, its strategically angled deck prevents slippage and optimum transportation of materials. Built to Bluff Manufacturing's high standards, the sheet rock dolly features:

- Tube frame surrounding the bottom unit for added strength
- 8" heavy duty casters for improved performance (2 fixed, 2 swiveled)
- Indented back and open frame design for movement around tight corners
- Rounded corners to prevent product or wall damage
- Top grade/quality steel weighing only 100 lbs fully assembled
- Load capacity of 2000 lbs
- Powder coat finish in six standard colors

“Although the sheet rock dolly has been in use for many years, this is the first time Bluff Manufacturing has chosen to produce and distribute its own version,” states National Sales Manager Ron Gilleland. “We looked at several models and designed ours to incorporate the best of everything.”

The sheet rock dolly is the newest addition to Bluff Manufacturing's extensive line of dock and warehouse equipment, which includes yard ramps, dock boards, dock plates, dock levelers and safety products. The sheet rock dolly is available in all of Bluff Manufacturing's 12 stocking locations nationwide for quick delivery.
