

## TRUCK RISERS Model TR

Raises trucks evenly to meet dock height, rather than just the rear wheels.

- Sturdy steel construction
- Eliminate unsafe, below dock loading conditions by allowing trailers to be positioned properly at dock level
- Reduce damage to other dock equipment
- 40,000 lb capacity rating per axle
- 80,000 lb capacity per pair
- Heights from 6"-24"
- Standard width of 42" per riser
- Lengths to accommodate any type of truck – completed worksheet required
- 6" Runoff Curbs
- Holes for anchoring
