

## SHEETROCK DOLLY Model SRD-KIT

Bluff Sheetrock Dollies help navigate confined spaces while transporting sheetrock, drywall, paneling, plywood, windows or doors.

- Strategically angled deck prevents slippage and provides optimal transportation of materials
- Indented back and open frame design helps with turns around tight corners
- Rounded corners prevent product and wall damage
- Constructed of high quality steel, weighing 117 lbs when fully assembled
- Powder coated blue – other standard colors available upon request: yellow, orange, black or grey
- Includes 8" heavy duty mold-on rubber casters (2 fixed, 2 swivel for improved performance); Sheetrock Dolly also available without the caster kit (model SRD)
